

Range: HAND-DRYER

Ref: 60361 - H-DRY Hygienic Deck-mounted hand-dryer

> Fonctionnement :

- Automatic infrared, self-adjusting, hand dryer with anti-blocking device (automatic shut-off after 60 sec of continuous use).

> Caractéristiques :

- Drying time: 10 to 15 seconds
- Air discharge speed: from 84 to 101 m/sec
- Power: only 1000 W
- Main power supply : 220/240 V / 50/60 Hz
- Sound level: 68,5 to 70,5 dB at 1 metre
- Sensor range: 130mm ± 20mm
- IP21

> Installation:

- The hand dryer is deck-mounted. The power box is undercounter.
- Drill a 35 mm diameter hole in the counter

> 80% energy savings:

- The hand dryer needs 10 à 15 secondes to dry hands with a 1000W power only.
- Around 80% energy savings versus traditional hand dryer (30sec with 2400W power)
- Heater switch that can turn the heater ON & OFF (the heater switch doesn't affect the drying time)

> Safety:

- 70°C thermostat allowing a constant 55°C air stream
- Auto resetting thermostat turns unit off at 105°C
- Thermal fuse cuts unit off at 142° C

> Finishing:

- Stainless steel finish

> Norms:

- CE
